

# Builders

## Easy to Manage Business Solutions for Builders

Managing one project with purchases, people and accounts itself for a builder is challenging, leave alone multiple of them. Equip your back office staff with Jooji's power tools. Partner with our solution to build and strengthen your business. Our built in customizable modules cement your purchases, sales, inventory, customers and suppliers along with your revenue to go greater heights.

### Projects

- Manage and track project activities and status
- Track costs/revenues/purchases by project
- Measure profitability based on project
- Project wise Resource booking, scheduling and costing
- Project based cashbooks and tracking

**Easy to Use** - Non accounting professional can use the system and create all the transactions while a senior accountant or manager can review, make changes if needed and approve the transactions.

### Compliance

- Online auditing and tracking facilitating concurrent audit
- Audit Queries and Answers online
- Complete Audit History tracking
- Attachment of scanned documents to the transactions for online audit
- Complete drill down from the main reports to the transaction level

### Sales

- Product definition based on Location/Layout/Type of Product
- Individual and category based Product pricing/Discounts/Additional Charges
- Tracking Sales Leads and Potential customers, Follow-ups and Reminders
- Tracking receivables based on payment schedule
- Tracking Documentation and electronic document management

### Purchases & Stores

- Complete purchase process RFQ > Quote > Purchase Order > Invoice > GRN
- Support for Multiple stores and Multiple Invoicing Offices
- Goods Receipts/Issues/Transfers
- Stock Tracking by FIFO/LIFO/Actual
- Barcode tracking of critical items
- Flexible physical verification
- Accounts Payable Tracking Project wise/Vendor Wise

**Controlled Access** - The access to various transactions is very fine grained and can be controlled at each small transaction level for each user

**Real Time Reports** - Current status like cash position, pending payments, receivables due can be accessed by anyone in the company who has access with the click of a button

**Access From Anywhere** - Access your data from anywhere - from home, from hotels when you are on tour; Work need not wait because you are not in office.

**Multiple Locations** can be managed easily since everyone can share the same data.

### Vouchers

- Very simple and can be created by unskilled users
- All can be accessed through the day book by an expert to review and approve
- Support documents like bills can be attached to the vouchers for review and audit
- Repetitive vouchers can be copied to create new vouchers
- Bulk vouchers like salary vouchers employee wise can be stored as templates and used for subsequent months
